City, State & ZIP _____	Phone _____ Fax _____

Lab #	Sample ID	Lawn/Garden	Additional Tests

\$30.00* S-14 Basic Lawn/Garden Analysis
pH, Sol. Salts, NO₃-N, NH₄-N, P, K, Org. Mat.

\$43.00* S-1 Complete Garden Analysis
pH, Sol. Salts, NO₃-N, NH₄-N, P, K, Org. Mat., Ca, Mg, Na, S, B, Zn, Mn, Cu, Fe, Eff., Tot. Bases

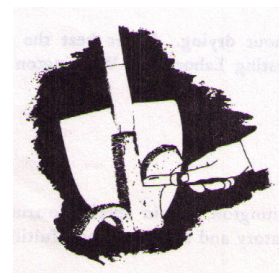

\$54.00* S-7 Complete Garden Analysis *(for acid soils)*
pH, Sol. Salts, NO₃-N, NH₄-N, P, K, Org. Mat., Ca, Mg, Na, S, B, Zn, Mn, Cu, Fe, CEC, Tot. Bases, % Base Sat., Lime Req.

** An \$8 surcharge per shipment will be added if fewer than 3 samples are sent with our courier*

*Please Detach and Submit the Above Portion with Soil Sample(s) **and payment***

Basic Lawn/Garden Sampling Techniques

- Use clean sampling tools. A push probe is ideal however a regular shovel can be used as shown in the diagram.
 - Sample each representative area to at least 12 inches. Deeper depths are necessary for deep-rooting crops.
 - For lawns and garden areas take at least 5 cores.
 - Mix multiple cores thoroughly in a sample bucket.
 - Placed about 2 cups of the mixed sample in a sample bag. Be sure to label the bag with all pertinent information.
- Fill out a soil sample request form available above and indicate which test group you would like.
- Keep bags cool and out of the sun and take to laboratory for analysis.

Additional tests may be requested. See www.soiltestlab.com for more information
